

# EARLY YEARS FUNDING

## CHANGES TO FUNDING FOR CHILDCARE PROVIDERS

# £1 BILLION MORE

### Fairness

Fairer funding for local authorities through a national formula, and for providers through a universal base rate.

### Sufficient funding for free childcare

We will be investing over £1 billion more per year by 2019-20 to deliver free childcare.

# 95%

### Maximising funding to providers

Local authorities will be required to pass on at least 95% of funding to providers.

### Transparency

Any difference in funding from one childcare provider to the next will be transparent and easy to understand.

### A better deal for children with SEND

We will provide dedicated funding for disabled children and more support for children with special educational needs.
