

## Nanny profile tips

Not sure what to include in your [SearchChildcare](#) listing?

---

Creating a great nanny profile isn't about listing every single detail about your career history. Instead, we recommend highlighting just the most important and useful features about the service you offer.

When deciding what information to provide, try to think about what parents might find useful when making their childcare choice. Consider including the following;

- ★ The length of time you have been working as a nanny
- ★ Your Ofsted or CIW voluntary approval scheme details (where applicable)
- ★ Details of any relevant training you have undertaken
- ★ Whether you hold a full UK driving licence
- ★ The area in which you are happy to work
- ★ Short recommendations or testimonials from existing clients

**IMPORTANT INFO ABOUT PHOTOS:** Your images are public so anyone can view them, which makes it possible for anyone to be able to obtain a copy of them. It is therefore important that you have full permission before you upload images to your profile. It's also wise to only upload images in which people and locations are not identifiable. For example, consider only choosing photos of children playing where you can't see the child's face or any other identifiable features.
